FIVE PER-CENT ADVANCE

In the Price of Iron and Steel Pipe Made Yesterday. Speaking of the advance of 5 per

cent in iron and steel pipe made yester-day at Pittsburgh, the Press says: The price of iron and steel pipe will be advanced about 5 per cent as a result

of the meeting of manufacturers today. The meeting is a regular monthly one, and coming as it does just at the present time, when the pipe market is manifesting an unusual activity, it is attracting more than the ordinary amount of interest. The advance in price will be the direct result of a large number of important orders which have been placed within the past week or two. It was during the latter part of the week that the Standard Oil Company placed an order with Pittsburgh mills for forty miles of eight-inch pipe, and the manufacturers are just now getting in bids on two more large orders, one for thirty miles and another for thirty-three miles. The regular market quotations on pipe advanced a few points last week as a result of the briskness, without the formal action of themanufacturers. The pipe miles allower the country are running full tilt and are getting more business than they can conveniently care for. manifesting an unusual activity, it is

Wheeling Loses one of the Most Prominent Figures

IN HER JOBBING COMMUNITY.

JOHN C. RIHELDAFFER, HAVING RESIGNED HIS POSITION AS SECRETARY OF THE VANCE SHOE COMPANY, LEAVES FOR CHICAGO TO BECOME MANAGER OF THE PHOENIX SHOE COM-PANY-A TESTIMONIAL BY CY-RENE COMMANDERY.

In the departure of John C. Riheldaffer, late secretary and treasurer of the Vance Shoe Company, for Chicago yes-terday, Wheeling loses one of her brightest young business men and Chicago is the gainer.
The news that Mr. Ribeldaffer would

sever his local business connections and make Chicago his home in the future, did not become generally known until yesterdas, and his departure for the Windy City followed in the afternoon. A number of the gentleman's business friends and associates accompanied him to the railroad station and bade him the last farewell with feelings

of regret.

Recently the Phoenix Shoe Company, with a large shoe factory at West Pullman, an industrial suburb of Chicago, with a large shoe factory at West Pullman, an industrial suburb of Chicago, was formed, succeeding the Vance & Jones Company, of which Mr. Jones was the manager. Mr. Riheldaffer has been chosen the manager of the Phoenix company, and it was to accept this important position that he tendered his resignation last week as secretary and treasurer of the Vance Shoe Company, of this city. The Phoenix company is a sister corporation of the Vance company, the stockholders of both being largely the same, and the product of the West Pullman concern comes in its entirety to the Vance Shoe company, whose jobbling trade extends over both the east and central west and is one of Wheeling's largest jobbling enterprises. On Saturday evening the members of Cyrene Commandery No. 7. Knights Templar, of which Mr. Riheldaffer has been a prominent member since its birth, met and presented to him a handsome past grand commander's jewel, as a token of the esteem in which he is held by the Knights. It is inscribed as follows:

Presented to
JOHN C. RIHELDAFFER
by his friends in
Cyrene Commandery,
August 5, 1898.

William F. Shaffer has succeeded Mr. Riheldaffer as secretary and treasurer of the Vance Shoe Company, and his promotion after years of faithful and efficient service in the company's employ, is a deserved recognition of his

ficient service in the company ploy, is a deserved recognition of his ability.

Mr. Riheldaffer was a director in the Jefferson Iron Works, the City Hospital Association and Ohio Valley Home for Aged and Freindless Women, a trustee in the Dime Savings bank, a member of the city board of education and prominently identified with the work of the chamber, of commerce. It is supposed his resignation as a member of the board of education will come before that body at its next meeting.

JEFFERSON DIRECTORS

Meet in This City and are Said to Favor Reorganization,

Yesterday there was a meeting of the board of directors of the Jefferson Iron works. The meeting convened at the City bank in the morning and was con-tinued into the afternoon. Efforts were made to learn just what was done at the meeting, but the people approached maintained a reticence that could not be roken down under the persunsiveness of seekers after information. From an outside source it is learned that the directors are considering a reorganization of the company and the starting up of the plant at Steubenville. The blast furnace is at present under lease to the Aeina-Standard company, the product going to the company's finishing mills at Mingo Junction. The lease expires next year. So far as could be learned no decision on the matter of reorganization was reached at yesterday's meeting. Among the out-of-town directors here was Spaulding K. Wallace, of Steubenville, who has been identified with the management of the corporation. Most of the directors and stockholders are Wheeling people. of seekers after information.

Joe Vismarie, who was injured by be ing hit by a trolley pole as he stepped out on the running board of a stree car, Sunday night, in North Benwood, will recover. He received a severe bump to his head, but he will be able to be out in a few days. His accident has aroused agitation against the close proximity to the track of trolley poles in Benwood. will recover. He received a severe bump
